

Complexity / Level of polish

- Rs40k → Includes all the *essential features* (resource data management, chat, video call, live map, notifications, file submissions, security).
- The design/UI may be more basic and with limited revisions.

Number of revisions & improvements

- Rs40k → Limited revisions (maybe 1–2 major rounds).
- Rs50k → More refinement, additional iterations, and improved UI/UX polish.
- Rs60k → Unlimited revisions within the project timeline, plus extended support/maintenance.

Extra features or customizations

- For example: advanced analytics, more interactive mapping, or deeper integration with third-party APIs may fall under higher packages.
